

## Fuel Surcharge Table

Kawartha Courier adjusts its fuel surcharge based upon the 4 week weighted average price of regular unleaded gas or deisel fuel established by MJ Ervin and Associates ([www.MJErvin.com](http://www.MJErvin.com)), a company that monitors fuel prices across Canada daily. The fuel surcharge will be subject to review monthly and is applied to services based on equipment used, to more accurately reflect market costs. The table below illustrates the average pump price that the fuel surcharge will be based on.
